

VIEW OF MT. ADAMS AS YOU LOOK NORTH FROM TROUT LAKE (NOT TO SCALE)

SUBJECT:

UFO EVENT WITNESSED BY 2 SOBER PEOPLE (SALLY AND STEVE) ONE NIGHT IN LATE AUGUST 2005 FROM A TROUT LAKE PARKING LOT ABOUT 1/2 MILE FROM THE SATTVA SANCTUARY.

SEE 1 ABOVE: AT APPROXIMATELY 10 PM, INITIALLY A "NORMAL" AIRCRAFT WAS SEEN COMING IN FROM THE SOUTH ON THE EAST HORIZON (AT APPROX 30 DEGREES). IT THEN BEGAN TO UNDULATE IN A DELIBERATE VERTICAL SINUSOIDAL PATTERN AS IT HEADED FOR MT. ADAMS. IT LANDED AT APPROXIMATELY POSITION 1. THE WHITE ORB INCREASED IN SIZE AND INTENSITY WHILE IT WAS STATIONARY AT THE LANDING ZONE. INCIDENTALLY, THE LANDING ZONE WAS THE SAME AREA WHERE A UFO CAN BE SEEN IN JAMES GILLILAND'S FASCINATING VIDEO FOOTAGE.

SEE 2 ABOVE: TWO SMALLER ORBS - BRIGHT RED AND GREEN "MORPHED" OUT OF THE MOTHER ORB AND BEGAN CIRCLING IT. THEY MORPHED BACK INTO THE MOTHER SHIP.

SEE 3 ABOVE: WITHIN 3 SECONDS THE UFO SHOT UP TO THE TOP OF THE MOUNTAIN, INCREASED IN SIZE AND BRILLIANCE FOR A FEW SECONDS THEN DECREASED IN INTENSITY. AFTER A FEW MINUTES, IT DEPARTED TO THE EAST.

MR. SKEPTIC, DO YOU THINK THIS COULD HAVE BEEN SWAMP GAS OR A WEATHER CONVERSION?

LET'S DO THE MATH:

$$3600 \text{ SECONDS IN 1 HOUR} / 3 \text{ SECONDS} = 1200$$

$$3,000 \text{ FT.} / 5,280 \text{ (FEET IN A MILE)} = .568 \text{ MILE (APPROXIMATE LINEAR DISTANCE TRAVELED BY THE UFO IN 3 SECONDS)}$$

$$1200 \times .568 = 682 \text{ MPH (AVERAGE SPEED WITHIN 3 SECONDS)}$$

IMAGINE THE G FORCES APPLIED FROM THE SUDDEN VERTICAL ACCELERATION. NO HUMAN CAN SURVIVE THIS CRUSHING FORCE.

\* THIS VERTICAL DISTANCE COULD HAVE BEEN MORE WHICH WOULD MEAN A HIGHER AVERAGE SPEED. AND IT COULD HAVE BEEN LESS. REGARDLESS OF THE "GUESTIMATE" TO TRAVEL THAT DISTANCE WITHIN 3 SECONDS IS AMAZING.
