

## Contact and Censorship

By [James Gilliland](#)

Contact has been made at the [Sattva Sanctuary](#) and many other places, yet it has been censored by the TV, radio and press. Why? Because it did not take a billion dollars of taxpayer's money and elaborate equipment to make contact. It is inconsistent to think a race of beings with the ability to travel interstellar and interdimensional would be using radio waves for contact. Therefore SETI and other main stream organizations and institutions which depend upon such equipment and financing surely must censor or discredit the fact that contact has already been made.

It is also inconsistent to believe our off world visitors would not be very advanced both spiritually and technologically because their technology would have destroyed them without the balance of spirit. It only stands to reason they would contact the advanced masters on this plane with a high degree of honesty, integrity and spiritual development who would have the telepathic abilities and reference points to understand. There are various reasons why they do not contact those within your government or religious institutions due to the long track record of ill intent and misuse of knowledge and power.

The masters of the Earth throughout every culture have chosen to work towards Universal Peace, Brother/Sisterly Love, Individual Freedom and Prosperity for All in service to the Creator in all creation. These off world beings represent whole civilizations that live according to these same principles. These principles and those who live by them are a threat to those who desire to control, dominate, dumb down and disempower the individual. Money now is the manifesting force behind destiny and those who control the money control destiny. They control the Government, all of its agencies, the major religious institutions, society in general, and even the main stream media. Only a few courageous people have against all odds and with a lot of courage, personal loss and hardship chosen truth, service and impeccable integrity to be the governing forces in their lives.

One by one let us address those who wish to leave you in darkness. Those who control the money know they will have to give up the need for domination and control, the manufactured lack, misinformation and all the games which hold the masses in ignorance as indentured servants. Why? Because advanced civilizations do not use money. They live abundantly without separation. They know they are one family and work always in the highest good of the whole and the environment knowing it is all one. They know the Creator is omnipresent in all creation. They would not think of dominating, controlling, forcing lack or subservience upon another. They also have free, clean, earth friendly energy.

These benevolent off world visitors are an immense threat to those who do wish to leave you ignorant, demand subservience, or wish to perpetuate the gross uneven dispersal of wealth, class separation, and complete dependency for all your needs. This is why you will not see UFOs reported in the main stream media by the talking heads, financed by big business who are there to maintain the status quo uninterrupted.

The main stream religions will also have to release their strangle hold on society because these ancient off world cultures know more about God and the universe as well as our history than they will ever know. Their knowledge would put an end to the dogma, the misinterpretations of the anointed ones and the alteration of sacred books by kings and institutions for their own personal power and wealth. They will clarify the teachings of the great masters all of whose teachings removed God from the Temples and put God where God belongs, back within the hearts and minds of the individual and within all life. For this they were crucified.

These advanced cultures understand the following passages. "Man/woman are created in the same image and likeness of God." "The light that lighteth every man/woman is the light of God and the Temple is within." They also understand the prophecy, "There shall come a day when man/woman will not worship God in the temples or mountain tops but within self and Ye are Gods." Thus they are a threat to the religious institutions that stand between man/woman and God capitalizing on and perpetuating fear, unworthiness and guilt, demanding subservience to images separate from Man and Nature. What the fundamentalists and the fanatics do not realize is that the masters of every culture and every religion were inspired by off world advanced cultures whose ships are referred to in every sacred text. They also do not realize that is where the great masters ascended to and from where they will return.

Let us now address the Military. The goals of the military are to get the knowledge and technology to dominate or overpower others. The national security depends upon being top dog with the most destructive weapons available. Their agenda is to shoot them down, get the knowledge and technology for power over rather than service. To them these off world entities are a threat. Everything they do not understand and do not have power over is a threat. Do you understand why they are not being contacted? Do you understand why they need to cover up the existence of UFOs. They have no control over them. These off world visitors are superior on all levels with complete stealth capabilities. They are capable of interstellar and interdimensional flight with weaponry capable of turning this planet on its side or into a cinder in a moment. How does that make one feel who is responsible for your protection? Quite inadequate, therefore they must cover up the existence of UFOs and continue to back engineer the crashed ones here and there until they have a model of their own. This has already been done, yet it is grossly inferior. They also must keep the threat alive because their very existence depends upon having a constant threat. All they can see with, unfortunately, is a military mind.

There are also the various government agencies that, believe it or not, have infiltrated and control many of the UFO groups and reporting agencies. What better way to gain information and spread misinformation as well as censor anything that does not fit their agenda? They have enough hardware from crash sites and documents to prove that UFOs exist to fill a stadium.

Now the masses are completely dependent on the continuation of the status quo as

well. Their very survival depends on the continuation of business as usual. They are in fear of being chastised by their friends, their church or losing their jobs or fear losing acceptance or approval outside of self. The two things people fear the most are change and the unknown. All most want is the steady check, the condo, the car, beer, the TV and weekends off. They do not care by what means they get it, or if it is in some way harmful to Humanity and the Earth, all for the sake of security. What they will be reminded of in the very near future is that there is a reaction to actions against Humanity and Nature which will soon be their greatest insecurity; it is in the wind and just around the corner. The condition of our present society and environment is on a downward spiral and is not sustainable. This is one of the main reasons the UFOs are here.

One of the last censors is the politics within the very UFO community itself. There are the hardware hounds that censor anything that is not nuts and bolts. There are those who focus on abduction, implants and mutilation. There are those who capitalize on fear and suspense, who censor anything spiritual or benevolent about advanced races returning to Earth. Each believes he or she has the truth and the only truth and some have built empires upon and must maintain a limited truth. What if it was all the above. What if they transcended the egotistical drives, competition and put all their information together to solve the puzzle? The UFO phenomenon cannot be pigeon holed or dominated and censored by any one group. It then becomes another religion or institutionalized belief system.

At last you have the radical few, those who seek knowledge not recycled ignorance. There are those who want to know and the enlightened ones that do know. They are a threat to all of the above and are censored the most. Contact comes with enlightenment. So now you know why despite video footage, pictures, multiple eye witnesses, miraculous awakenings and healings here at the Sanctuary and despite millions of sightings and contacts in and around the world, UFOs are censored on TV, radio and the press. What they do not know is that they cannot censor the universe and a grand reunion that is about to occur. A reunion has already happened here on the mountain at the Sattva Sanctuary and all it took was an open mind, a loving heart and a little courage. The reunion will be world wide in the very near future. It is part of Earth's evolution, a divine plan sponsored by the very source itself. The age of ignorance and tyranny is coming to an end.

There is more to the story. Be well.
